

ESSENCE

The Essence Collection is a handpicked selection of chairs and stools from the main collection.

A selection which is chosen, to be used by the outdoor professionals with their focus on the contract market. Cost effective yet durable materials, item sizing for optimized loading and it's unique designs makes this selection the right choice for decorating every commercial outdoor space.

## Venice

The Venice collection is inspired by classics like the Bahama, Madrid and Brava. Redesigned frames, woven with cost effective ropes and wicker. Wrapped wicker gives the items in the Venice family a unique look and also results in very attractive pricing.

## Racoon

A collection of seats with generous and enveloping shapes, where the comfort goes hand in hand with a traditional design, with a touch of contemporaneity. Seat and back meet in a sweet relationship of sinuous curves and geometries, to then be finished with a careful interweaving of ropes. All the seats are easily stackable.

## Rialto

With the introduction of the Rialto, We have added a standout piece to their collection. The chair's angel-like wings create a distinctive aesthetic, while the gently contoured seat and back ensure a comfortable sitting experience. The twisted wicker weave offers a natural appearance at an attractive price point. Additionally, the traditional cross-bracing between the legs has been replaced with an innovative leg connection, facilitating easy stacking.

## Polka

Inspired by the iconic fashion pattern of polka dots, we've reimagined our bestseller in full aluminum. The whimsically scattered holes echo the charm of polka dots, lending the chair a playful and modern appearance. With a wide array of color options for the frame, you can pair them with your chosen fabrics to craft a personalized 'fashion statement' that complements any outdoor setting.

## Nida

Nida is synonymous with design at the service of functionality. A collection of seats designed by Italian studioPANG entirely made of aluminium, with a square tubular section that draws the frame's silhouette. The rigor of the square section is interrupted and gradually softened in the armrest, which is made entirely of aluminium cast, creating an ergonomic and distinctive element that, at the same time, makes the chair unique. Seat and back are finished with a typical S'48 weaving, which allows the opportunity to offer a wide range of possible combinations.

# Ala

An elegant, sinuous and harmonious collection that, thanks to a simple and elegant design, finds an solution for any environment that needs a product with character, able to personalize it with calmness and sobriety. The Ala family offers a refined dining chair and a cosy lounge set, each with a unique, simple and highly recognizable style that made this collection a must have to furnish any outdoor space.

## Palma

A large collection made up of different interchangeable, practical and functional models. The simple and refined design of the Palma family guarantees high quality standards, durability and robustness, suitable for any environment in which it is placed. Each piece is highly stackable, with or without armrests, chairs and stools. The delicate intertwining of the rope gives the product a outdoor connotation and makes the product more attractive to the user. A wide range of colors, finishes, ropes and chromatic solutions make Palma the perfect solution for any outdoor space.

## Rio

Rio is a large and diverse family of outdoor furniture characterized by a decisive and memorable design, capable of personalizing the environment in which it is placed. The collection consists of chairs, sofa sets, tables and lounge chairs. Each piece retains the characteristic features of the model, which are dictated by the geometry of the backrest, as well as by the dialogue that is created between the frame itself and the rich weaving of ropes that develops within it. A variety of ropes, fabrics and finishes with various combinations makes this collection even more extensive and functional.

## Quad

A melting pot of different styles, materials and geometries, Quad proposes an armchair and a stool characterized by the encounter between sinuous and rigid shapes, for a surprising result of expressiveness and geometry. Seat and backrest interact with each other through different geometries and material finishes, where aluminium alternates with teak and braided rope, for an unpredictably and interesting design.

## Slick

A family of seats with generous and enveloping shapes, where the design goes hand in hand with practicality and functionality. Seat and back meet in a sweet relationship of sinuous curves and geometries, to then be finished with a careful interweaving of ropes. All the seats in the Slick collection are easily stackable, both in the version with and without armrests. The family also includes lounge seats with their special coffee tables.

## CARE INSTRUCTIONS

### Ropes

Our Rope is made from complex fibre strings strengthened with filament yarns that give them a durable and resistant structure, while our Polyolefin rope is made from highly durable synthetic resin yarns. The structure of our ropes makes them stain-resistant and easy to clean. In case there is a spot to clean, please use following instructions: Non-greasy marks: warm water spot clean with half a spoonful of any standard washing powder or liquid (non-bleach) in a cup of hot water. Blot the stain with a cloth or a sponge dampened with this solution. Once the spot is removed, sprinkle the area with clean water to remove any possible traces of washing powder or liquid. Do not use stain removers. Oil or grease spots: butter, oil, lipstick, and the like will not penetrate the yarn, so it can easily be cleaned in the same way as mentioned above.

Do not use high-pressure water spray equipment to clean the furniture in any case but use a general gardening hose instead if needed. our Ropes resist sunlight, saltiness, sunscreen cream, abrasion, sweat, stains, etc. for many years and provide worry-free maintenance.

### Fabrics

We use only the best-quality mesh, acrylic, and olefin fabrics, which have proven their durability in daily use. All fabrics have been successfully tested by following the ROHS and REACH test standards. Cleaning the fabrics requires not more than lukewarm water, a cloth, and, on some occasions, a mild detergent. The fabrics are designed so that no dirt or water can penetrate the fibers, so simply wipe off any dirt with a (lukewarm) wet cloth.

### Storage

When protected by a cover or stored indoors, make sure the fabrics and inner fillings of the cushions are completely dry to prevent possible infection by mold or fungus.

### Aluminium and Steel

Clean aluminum and steel furniture parts with water, mild soap, and a sponge. After cleaning, rinse the furniture with plenty of water to remove any possible residue.

### Teak

Teak is easy to clean with a combination of lukewarm water and soda. Use a soft brush to gently clean the affected part of the product. The color of teak, by nature, turns over time into a nice silver/grey patina. This does not affect the durability or weatherproof resistance of the product. It is a cosmetic change, which is liked by many. In case you wish to remain the original color, there are various products on the market to help achieve this. Products like teak protector and teak oil, as well as various teak repairs. When using a cover for your teak product, make sure you do not close the product airtight and leave some room for the teak to “breathe.” This prevents mold or fungus growth, which can permanently damage the product
