# Cobblestone

DESIGN EDI & PAOLO CIANI

Since its creation as the first lounge set in our collection, The Cobblestone quickly became the signature piece of the collection. Loved by many for its ultimate lounging comfort and extensive combination

options. The later added and matching sun lounger finishes up the collection. The lounge set which combines the use of upholstery seats with fine open woven backrests, became the center piece in many outdoor spaces. The 6-millimeter braid used to weave a classic fishnet pattern comes in a wide variety of colors

and designs. From classic grays to modern, fresh and in-house developed colors like our Orange Blossom. Combine the braids with the extensive fabric options and create the center piece of your own garden, terrace or beach club.

# Cobb

DESIGN EDI & PAOLO CIANI

Cobb is inspired by the Cobblestone and is created with the same use of materials and weaving techniques. This similarity between the two makes them highly compatible and easy to mix and match. The elegant high back version, with somewhat of a majestic exposure, lets herself easily be used as a standalone piece or grouped with others in a playful setting. Combine it with the comfortable pouf or matching Kafei tables to top off your ideal lounging space.

# Mojo

DESIGN STUDIOPANG

Mojo is a outdoor family that provides an elegant full set for any open-air living area, which is suitable for all outdoor environment. The set consists of armchair, sofa and coffee table: all the pieces of the collection offers a special rope weaving which fills the surfaces created by the harmonic frame of the tube. A surprising comfort is carried by the wide padded seat and the cute backrest cushion.

# Couch

DESIGN EDI & PAOLO CIANI

Classic design reinvented for today's high standards on design, comfort and durability. The firmly and tight upholstered seat section are combined with, a wink to the past, woven base.

Couch family consists of numerous different elements to help decorate any outdoor space in its own unique way. Besides the standard elements, the Couch family also contains swivel chairs, outdoor lighting, a huge 4-seater sofa, luxury daybed, double sun loungers and many more. Couch as well as our other upholstered furniture pieces are fully waterproof, thanks to our unique inner lining which prevents water from penetrating through the fabrics.

# Easy

DESIGN EDI & PAOLO CIANI

A fresh and good-looking collection that include sofa, armchair and coffee tables, perfect for various outdoor setting. A light aluminum frame is enriched by an elegant rope weaving which creates an articulated shape moving on the edges of the pieces. The Easy collection is very comfortable thanks to its wide and smooth upholstered elements which are able to wrap the users.

COFFEE TABLE

# KNOT

DESIGN ED VAN ENGELEN

The weaving method and the use of thick 10mm rope, gives the Knot a powerful "marine" look and feel. Combined with the matching table it becomes a great addition to every outdoor space.

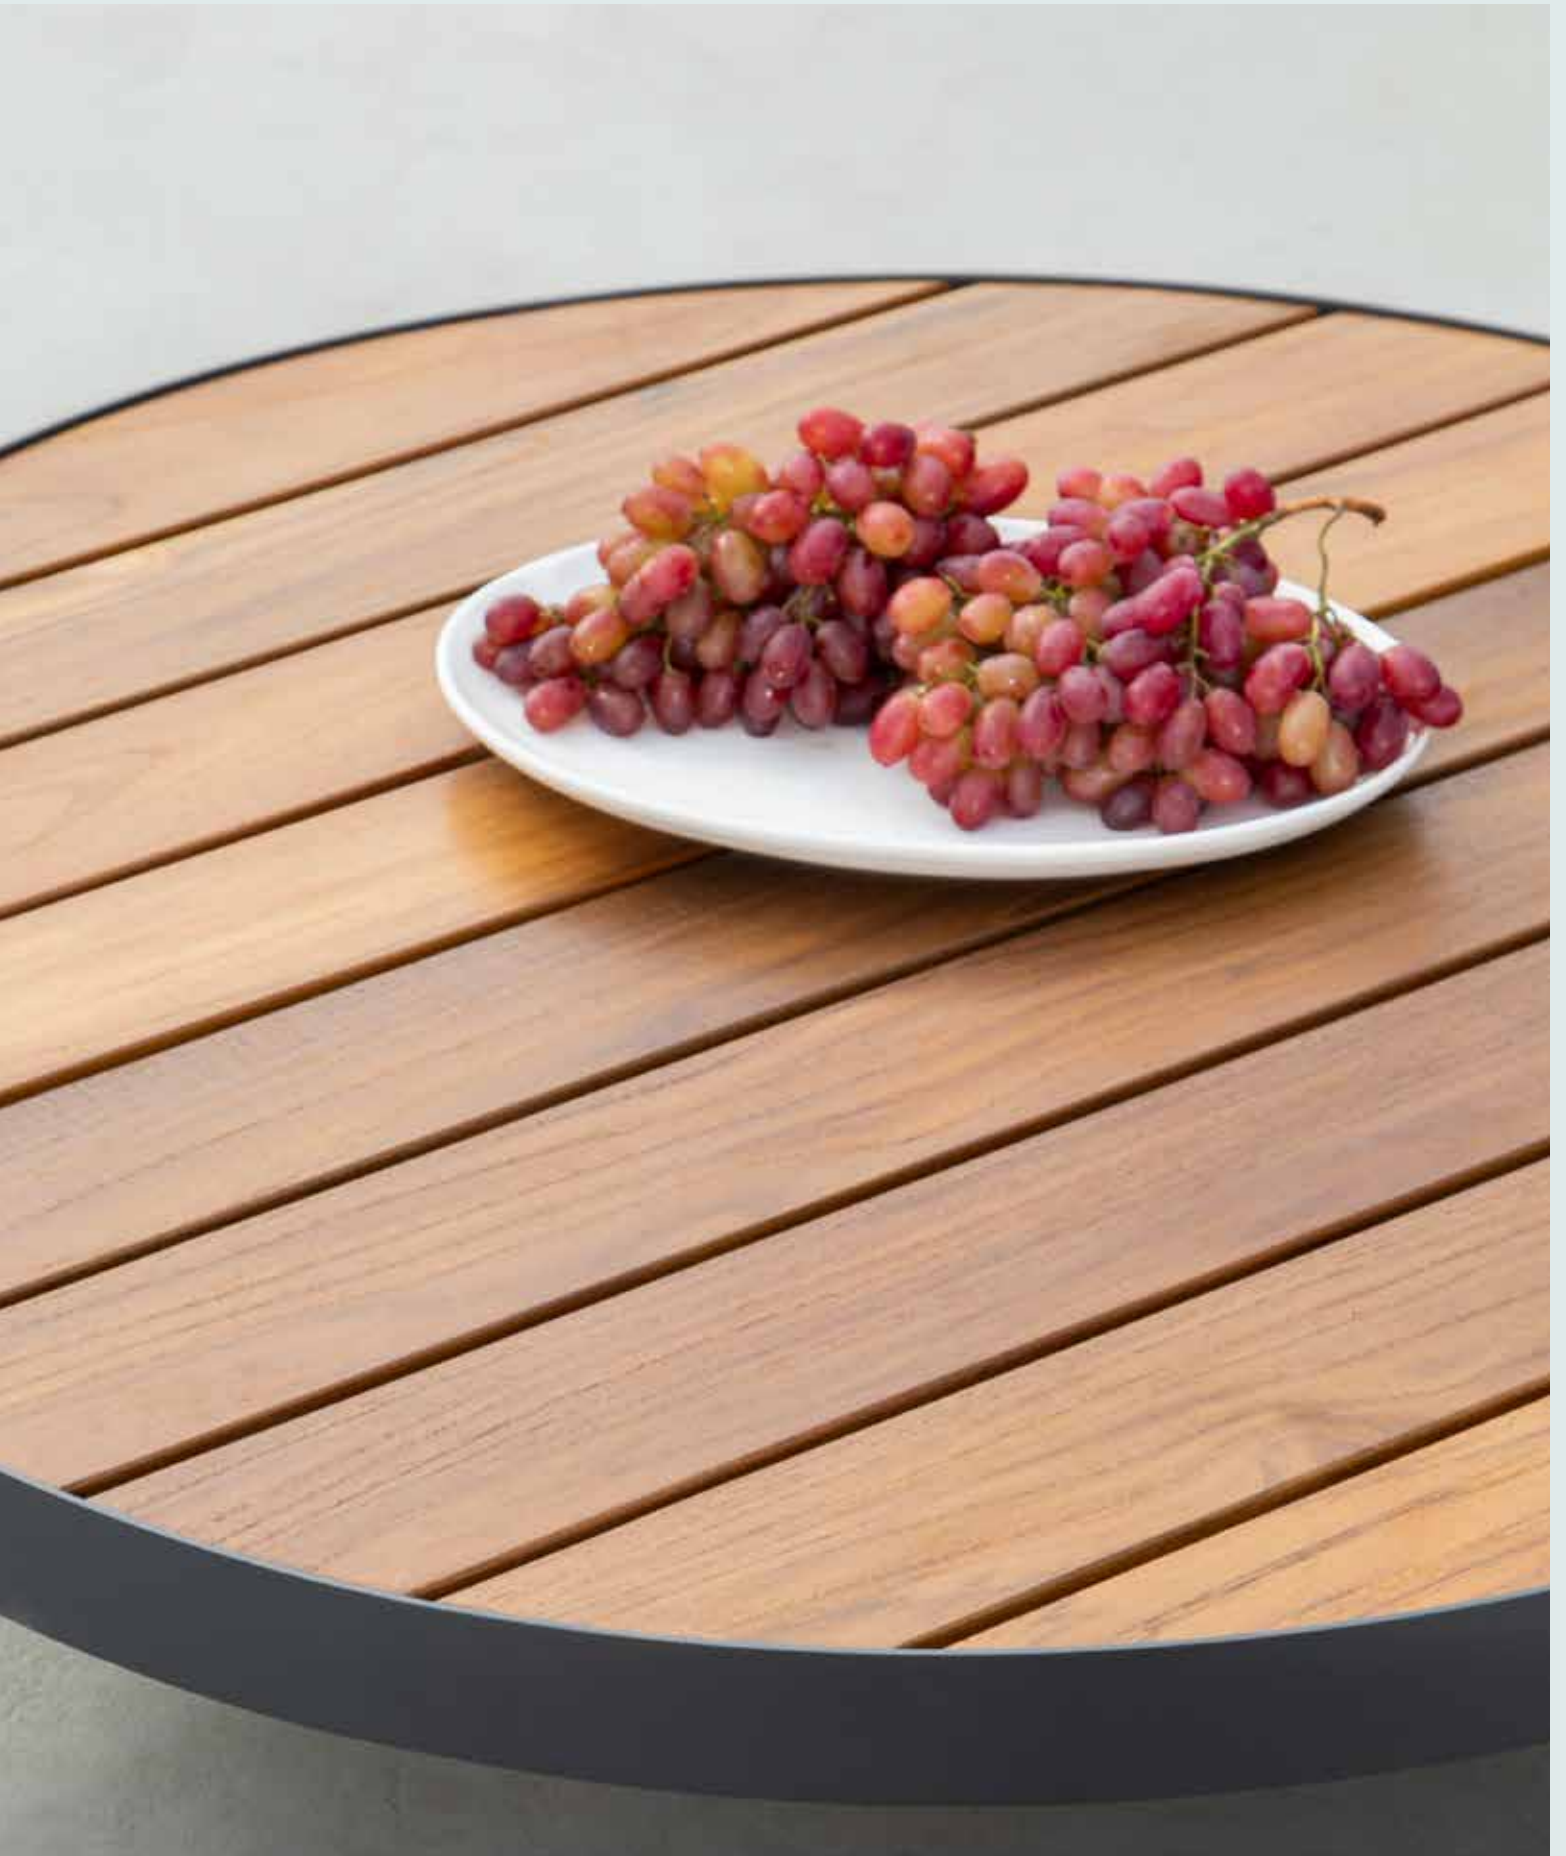

# TABLES

# Semola

DESIGN STUDIOPANG

Many sizes and shapes for a linear and exclusive collection of coffee tables which is characterized by the presence of 4 light tube-legs supporting various kind of tops.

# Kafei

DESIGN EDI & PAOLO CIANI

A linear and peculiar family of coffee tables with big sections and large top, Kafei is a perfect product to combine with any living collection.

# Greg

DESIGN EDI & PAOLO CIANI

Greg is an elegant and expressive coffee table where different materials and shapes are combined together: aluminum and slats of teak create an intriguing mix, perfect to be placed with any collection.

# Stock

DESIGN STUDIOPANG

A coffee table with a strong personality determined by the inclined couple of legs which support an innovative tray-top very functional and easily matching in different environments.

# Gran

DESIGN STUDIOPANG

A wide family of aluminum/teak coffee tables in various dimensions and shapes where the large-sectioned legs get up over the top, right to contain it thanks to an opposite special detail. Round, square and rectangular versions are available in many different finishes and colors.

# Astro

DESIGN IN-HOUSE R&D

Astro is a collection of linear and easy aluminum coffee table which fit naturally on many different living families.

# Cliff

DESIGN EDI & PAOLO CIANI

A couple of round coffee tables in two different sizes, perfectly suitable for many different kind of living set collections.

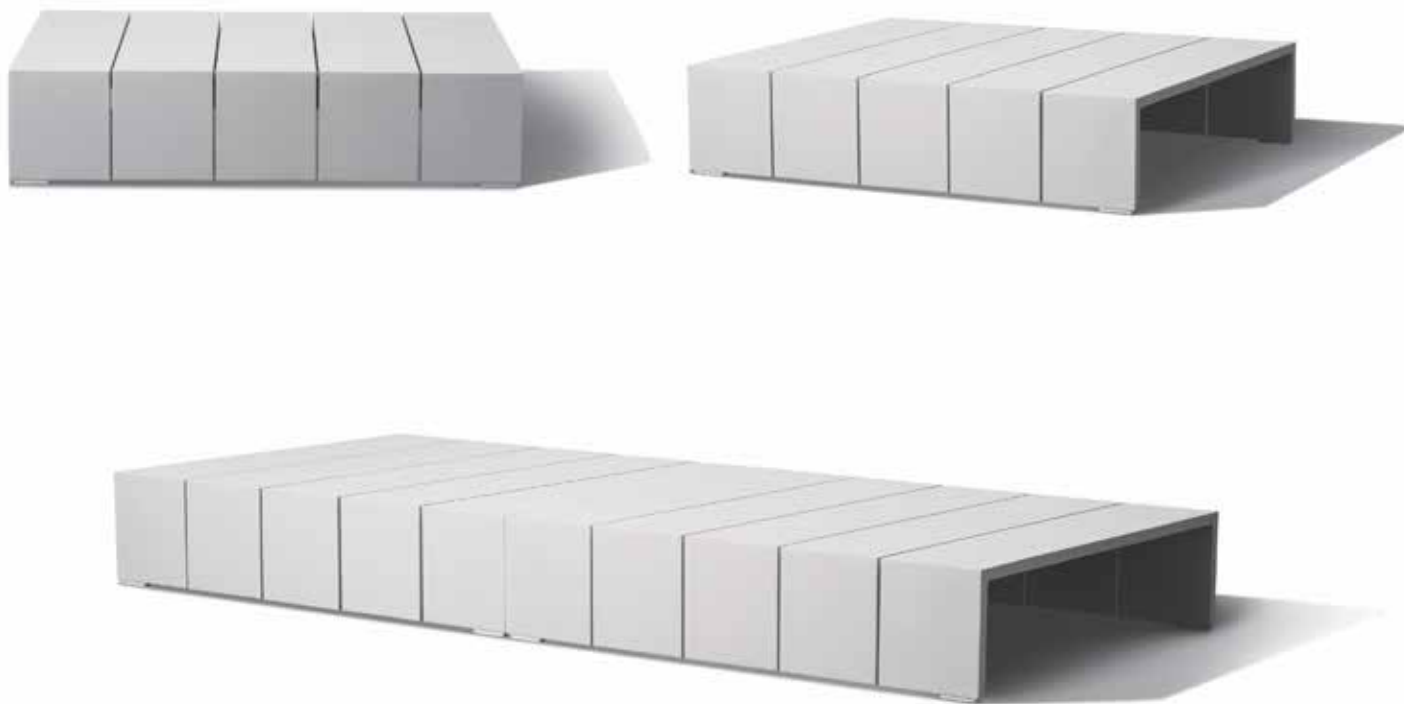

# Bok

DESIGN IN-HOUSE R&D

Simple, low, modular and absolutely very functional for any possible use or combination, the Bok coffee table is the right choice for a wide and comfortable series of outdoor product.

# Blox

DESIGN IN-HOUSE R&D

The name says it all, nicely shaped and open coffee tables. The size and shape make it easy for everyone to create their own setup.

# Shroom

DESIGN IN-HOUSE R&D

The mushroom shaped base give this coffee table a playful look. Combine sizes and colors to create your own "Forrest" in any outdoor space.

# Loop

DESIGN IN-HOUSE R&D

The "Loop", nicely balanced on a stable base serves not only as a coffee table but gives also enough space to store your favorite book or magazine.

# COLE

DESIGN IN-HOUSE R&D

Elegant, minimalistic design with sizes perfectly chosen to create a nice nesting system.

# Fin

DESIGN EDI & PAOLO CIANI

The laser cut, futuristically bended legs, give the Fin table an unique look and feel. Paired with your favorite chairs a true eye-catcher in any outdoor space.

# Rio

DESIGN ED VAN ENGELEN

The Rio dining table is a very strong and robust product, available in different sizes, colors, materials and shapes. It presents a linear and regular design which can be combined with all the dining chair of OUR collection and more.

## CARE INSTRUCTIONS

### Ropes

Our Tex. Rope is made from complex fiber strings strengthened with filament yarns that give them a durable and resistant structure, while our Polyolefin rope is made from highly durable synthetic resin yarns.

The structure of our ropes makes them stain resistant and easy cleanable. In case there is a spot to clean please use following instructions.

Non-greasy marks: warm water spot clean with half a spoonful of any standard washing powder/liquid (Non-Bleach) in a cup of hot water. Blot the stain with a cloth or a sponge dampened with this solution. Once the spot is removed, sprinkle the area with clean water to remove possible traces of washing powder or liquid. Do not use stain removers.

Oil or grease spots: Butter, oil, lipstick and the like will not penetrate the yarn so can easily be cleaned the same way as mentioned above.

Do not use high-pressure water spray equipment to clean the furniture in any case but a general gardening hose instead if needed.

Ropes resist sunlight, saltiness, sunscreen cream, abrasion, sweat, stains etc. for many years and gives worry free maintenance.

### Fabrics

We only use the best quality mesh, Acrylic and Olefin fabrics, which have proven their durability in daily use.

All Fabrics been successfully tested by following ROHS & REACH test standards.

Cleaning the fabrics requires not more than lukewarm water, a cloth and in some occasions a mild detergent. The fabrics are designed that no dirt or water can penetrate the fibers so a simply wipe of any dirt with a (lukewarm) wet cloth.

### Storage

When protected by a cover or stored indoors make sure the fabrics and inner fillings of the cushions are completely dry to prevent possible infection by mold or fungus.

### Aluminum and Steel

Clean of aluminum and steel furniture parts with water, mild soap and a sponge. After cleaning rinse the furniture with plenty water to remove possible residue.

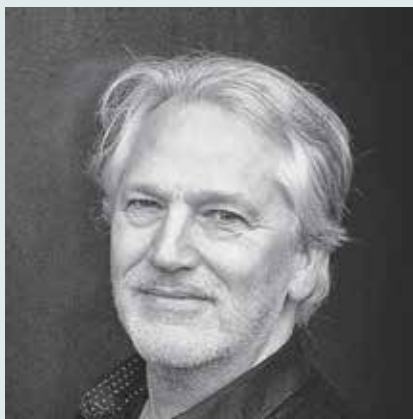

### Teak

Teak is easy cleanable with a combination of lukewarm water and soda. Use a soft brush to gentle clean the affected part of the product.

The color of teak, by nature, turns over time in a nice silver/gray patina. This does not affect the durability or weather-proof resistance of the product. It is a cosmetic change, which liked by many, in case you wish to remain the original color there are various products on the market to help achieving this. Products like Teak protector, Teak oil as well as various Teak repairs. When using a cover for your teak product make sure it does not close the product airtight and leave some room for the teak to "breathe". This prevents mold or fungus growth, which can permanently damage the product.

# DESIGNERS

### **Ed Van Engelen** \_Netherlands

After his graduation at the Design Academy Eindhoven in 1988 he has been working as a designer for international companies for more than 20 years, mostly in garden furniture related companies where he was responsible for the designs of in and outdoor products. Since 2008 he is working independently for leading outdoor and decoration brands worldwide.

In this field he has won some international job awards and many of his designs have been commercially successful in the past years. As an experienced designer he knows the ins and outs of all kinds of materials and can be involved in the process from the first sketch as far as the last specifications in the factories.

### **Edi e Paolo Ciani** \_Italy

Product and interior designers, they deal with design of furniture

and articles of Industrial Design for over 30 years. Since 1987 Ciani's brothers create and develop products for leading companies in the furniture for home, for office, for contract and outdoor. Given their long experience in the design furniture industry, they are able to offer assistance to customers from the first concept about each project up to technical and production consultancy.

### **studioPANG** \_Italy

Fabio Damiani and Marco Quistini set up studioPANG in 2012, based on the shared idea that by combining diverse passions and skill sets, the approach to the project is enriched with new ideas

and perspectives. Design, architecture and communication are, first and foremost, opportunities for comparing and contrasting, before being channeled into the project. StudioPANG is a workshop – one that is constantly engaged on researching and developing ideas and projects; an open, dynamic environment that leverages a wealth of different experiences to give rise to a versatile and multi-faceted business.

### **Hans Daalder** \_Netherlands

Hans Daalder (1963) graduates from the Design Academy in 1989 and starts his design studio a year later. Since then he is passionate about his work, designing for leading manufacturers of furniture, office furniture and other interior-products. His designs are in great demand.

In his own words: "Our team thinks in terms of logic; there is a reason for every detail in our work. This results in clear-lined designs. We aim for understandable beauty!".
